The policies identified in this document are to be construed in light of existing University policies and with deference to the requirements imposed on graduate education by the College of Education, University, the Board of Trustees of Florida State University, and the Governing Board of the State University System of Florida. The information outlined is subject to change and students should be alert to announced revisions required by the faculty of the program, the department, College and University.

**Mission**

The Educational Leadership and Policy Program aspires to be a world leader in the promotion of social progress and educational advancement through cutting-edge research, both pure and applied, and challenging graduate-level instruction which addresses questions of educational policy as they affect our communities at the local, state, national and international levels. We value a culture of academic freedom, intellectual curiosity, open communication, and academic rigor as well as the institutional supports necessary to sustain such a culture.

**Program Overview**

The Online Ed.D. in Educational Leadership and Policy is designed for individuals who seek preparation for such positions as senior-level educational leaders, policymakers, and policy researchers both domestically and internationally. The degree program includes a broad curriculum, encompassing the departmental core of courses, an interdisciplinary component, a research component, and a major area related to Educational Leadership and Administration (EDA). Please note: *the online Ed.D. in Educational Leadership and Policy Studies does not provide professional certification in Educational Leadership*. If you are interested in our state approved program for professional certification in Educational Leadership, please consider the Educational Leadership Specialist Degree Program.

**Application**

If a prospective student aspires to join our intellectual community, the following materials need to be submitted with the online application available through the Office of Graduate Admissions (https://admissions.fsu.edu/gradapp):

- Statement of Purpose
- Problem of Practice Research Statement
- GRE scores (optional)
- If an international student, a TOEFL/IELTS score
- Undergraduate and graduate transcripts.
- Three letters of recommendation, two of which must be academic references

**Admission**

Admission is governed by requirements stated in the “Admissions” chapter of the Graduate Bulletin, and by standards adopted by the program. It is expected that successful applicants will possess a Master’s degree from an accredited institution with a 3.5 GPA on a four-point scale (or equivalent).

In addition to the grade point average requirement, successful applicants may also submit GRE scores, though GRE scores may be waived for outstanding applicants meeting specific criteria (see program admissions website for additional details). For international students, a TOEFL score of 550 for paper based test, Internet based TOEFL score of 80, or an IELTS score of 6.5 or
better is required in addition to the GRE scores. All TOEFL or IELTS scores must be within a recent two-year period.

Please note that the online doctoral program is highly selective and enrollment is limited on a yearly basis. Meeting minimum requirements is no guarantee of admission. Other factors that are central to the admissions decision include, but are not limited to, leadership, policy and/or international experience in education or related areas, relevant work experience, high motivation to achieve personal and professional goals consistent with the program’s mission, and outstanding written and oral communication skills. The admissions process is intended to establish a culturally diverse learning community that will promote a culture of critical inquiry and encourage educational transformation and change.

Particularly as this is an online program, all admitted students need to confirm that they will have regular access to a computer, video camera, microphone, and internet access. Students are expected to check their FSU email and course sites in Canvas, including the student organization site, frequently.

**Major**

The Program of Educational Leadership and Policy offers one major for the online EdD:

Educational Leadership/Administration (EDA)

Upon application for admission to the program, the student should identify a disciplinary/methodological approach closely aligned with her or his interests and professional development goals.

**Financial Assistance**

Graduate assistantships are not available to online Ed.D. doctoral students. The following link will provide you with more information on financial assistance:

[http://www.gradschool.fsu.edu/funding-awards](http://www.gradschool.fsu.edu/funding-awards)

Go to the following website for additional information on College of Education scholarships:

[http://education.fsu.edu/scholarships](http://education.fsu.edu/scholarships)

**Annual Reviews**

Each year the student’s temporary advisor or major professor will assess the progress of the student in writing and the department will provide their assessment to the student, the department chair and the academic dean. A component of the annual review is the scholarly engagement requirement; more details on this process can be found on the EdD Org Site in Canvas and in Appendix F.
**Academic Advisor**

After admission, the student will be assigned a temporary academic advisor to assist them in developing an initial program of study and counsel them on degree requirements. This role will ultimately be assumed by the major professor. A checklist of key program milestones as well as professional development activities is provided in Appendix A. The program of study form is available on the College of Education’s Office of Academic Services & Intern Support – Graduate Support website [https://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students](https://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students) and is also provided in Appendix B.

**Diagnostic Examination**

Every student who has been admitted to work toward a doctoral degree within the department must, by the 6th week of the second semester after enrollment, complete a departmentally administered diagnostic examination. The purpose of the Diagnostic Exam is to assess a doctoral student’s ability to clearly articulate a problem of practice, describe its manifestation in their local context, and receive feedback from the ELPS faculty on their work. A problem of practice should be just that: a problem that affects, shapes, or influences a student’s practice in an educational setting. Crafting a problem statement and explaining its significance is one of the first steps in developing the Dissertation in Practice (DiP), the culminating project of the Online EdD.

The Diagnostic Exam is the first major milestone in the FSU Online EdD program. Students will complete the Diagnostic Exam in the first fall of their first year during Foundations of Practice Models course. The Diagnostic Exam will consist of the following:

1. **A written manuscript** (~1,000-1,500 words, or 4-6 pages, not including references) that describes a problem of practice (the problem statement), explains the existence of that problem within a local context (the description of the student’s local context), and outlines a potential path forward for conducting original research related to that problem of practice and explains the possible significance of that research.

2. **A summary of challenges** (~1 page), in which the student discusses potential concerns, unanswered questions, uncertainties or unknowns, or feasibility issues related to the problem of practice and potential research. The summary might include a discussion of problems with data access, ethical concerns, job-related uncertainties, or a reflection on the student’s own knowledge and areas where they might need additional guidance and support.

3. **A virtual defense** (~15 minutes) to be conducted with the advising team via Zoom. The purpose of the virtual defense is formative, for students to receive constructive feedback from their advising team on next steps and considerations on the purpose, relevance, and potential design of their future Dissertation in Practice (DiP).

Upon completion of the Diagnostic Exam defense, students will receive written feedback from their advising team based on the criteria outlined in the Diagnostic Exam Instructions document. Advising Teams will issue a **PASS, CONDITIONAL PASS, or FAIL** determination on the student’s Diagnostic Exam submission.
A **FAIL** on the first attempt is awarded in the case of plagiarism or academic honor violations, or a submission that is unresponsive to the Exam prompts and does not adhere to the Exam guidelines.

If a student receives a **CONDITIONAL PASS** on their first attempt, they will have 4 weeks to resubmit their revised Diagnostic Exam to their Advising Team. Upon resubmission, the advising team will review their manuscript and issue a determination of **PASS** or **FAIL**. If a student receives a **FAIL** on their resubmission, they may attempt the Diagnostic Exam a second time in the Spring semester of Year 1. The Director of the Online EdD program will coordinate a second attempt, should that be necessary. **If a student does not receive a PASS on their second Diagnostic Exam attempt, they will not be allowed to continue in the program.**

**Preliminary Exam**

Every student who has been admitted to work toward a doctoral degree within the department must pass the preliminary exam in order to advance to doctoral candidacy. Per FSU Graduate School policy: *the preliminary examination is designed to test scholarly competence and knowledge and to afford the examiners the basis for constructive recommendations concerning the student's subsequent formal or informal study.* Specific to the Online EdD program, the preliminary examination serves as an evaluation of whether a student has mastered the relevant subject area knowledge and is ready to pursue independent research on the DiP.

The full Graduate School preliminary exam policy is available in *Appendix G*. Please note that the most up-to-date policy is available online in the Graduate Bulletin.

**The Preliminary Exam Details**

**A. Content & Format**

The preliminary exam is a formal written document consisting of three sections: a full draft of DiP Chapter 1, a full draft of DiP Chapter 2, and brief overview of a feasible methodology that could be used as part of the DiP research (roughly 1-2 pages). The methodological overview should also discuss the potential data source(s) that may be used, and the extent students will have access to these data.

**B. Evaluation**

Faculty members on the DiP team evaluate the degree to which the sections 1 and 2 adequately address the required elements for Chapter 1 and 2 as specified in this document. For section 3, faculty members evaluate whether the proposed design is feasible and will answer the research questions.

Students will either receive a **pass** or **fail** on their first attempt of the preliminary exam. A **pass** is awarded to students who adequately address all, or nearly all, of the required elements. Students receiving a **pass** may be asked to do minor revisions to the document.
A fail is awarded to students who fail to adequately address several of the required elements of the written document.

If a student receives a fail on the first attempt, they will have 6 weeks to rewrite their exam using the feedback provided by their committee and attempt the preliminary exam a second time. Students will then receive a pass or fail on their second attempt. If a student receives a failing grade on the second attempt, they cannot continue in the program.

*Note: if a student receives a fail on their first attempt of the preliminary examination, they may not be able to defend their prospectus in the spring semester of that year.*

C. Process

Students submit the written component of the preliminary exam by the second week of the Spring 2 semester via Canvas in Laboratory of Practice II. The DiP team members will review the document and provide written feedback (including a pass/fail recommendation) to the major professor. The major professor reviews the feedback and, in consultation with the EdD Director as needed, renders a pass/fail decision by the end of the fifth week of the Spring 2 semester. Major professors will communicate these results to the student and will provide the student with written feedback (cc: EdD Director and instructor of the Lab of Practice 2 course). Students passing the preliminary exam should also complete an admission to candidacy form.
**Course Requirements**

The Educational Leadership and Policy Program of Study (POS) leading to the EdD degree consists of sixty-nine (69) credit hours, of which twenty-four (24) are required dissertation hours. With a strong emphasis on policy, the coursework is clustered into three areas: (1) Foundations/Policy, (2) Methodological Approaches, and (3) Intensive Academic Immersion Experiences that encourage students to think critically about their DiP. Students will also take at least two major electives; a list of possible courses will be provided. The required courses follow:

**Year 1: Foundations**

- **Summer (9 credits)**
  - EDF 6486: Applied Research Methods
  - EDF 5743: Foundations of Education
  - EDF 6485: Professional Learning for Educational Practitioners (PLEP) 1

- **Fall (6 credits)**
  - EDF 5464: Qualitative Research and Evaluation Methods
  - EDF 6474: Foundations of Practice Models

- **Spring (6 credits)**
  - EDA 6425: Literature Review for Educational Research
  - EDA 6105: Laboratory of Practice 1

**Year 2: Policy Context**

- **Summer (9 credits)**
  - EDF 6480: Applied Quantitative Methods
  - EDF 6493: Professional Learning for Educational Practitioners (PLEP) 2
  - EDH 5645: Data Driven Decision Making for Institutional Researchers

- **Fall (6 credits)**
  - EDA 6061: Educational Administration and Organizational Practice OR
  - EDH 6635: Organization and Governance of Higher Education
  - EDA 6XXX: Policy Studies in P12 Education OR
  - EDH 6401: Public Policy in Higher Education

- **Spring (6 credits)**
  - EDA6108: Laboratory of Practice 2
  - Major Elective

**Year 3: Original Research in Practice**

- **Summer (9 credits)**
  - Dissertation Hours (6 credits)
  - Major Elective

- **Fall (9 credits)**
  - Dissertation Hours (9 credits)

- **Spring (9 credits)**
  - Dissertation Hours (9 credits)
**Transfer of Courses**

A student may **transfer** up to six semester hours of relevant course credit into the doctoral program, provided the courses were earned with a grade of "B" or better, are approved by the student's advisor and were taken **after** the completion of the master's degree and within five years of admission to the doctoral program. These **transfer** hours may be counted toward the completion of the program of studies leading to the doctoral degree if approved by the student's academic advisor.

**Continuous Enrollment**

All students must be continuously enrolled over the course of their graduate studies, meaning that they must register for courses as the online Ed.D. curriculum outlines. If a student does not do so, they will be considered inactive and must reapply to the program. The reapplication materials must include a letter of reference from their temporary advisor or major professor who is familiar with the student’s circumstances as well as an updated letter of intent that includes a proposed timeline for completion of graduate studies. This is a cohort program, students must follow the curriculum as it is outlined in the Program Handbook.

Clearance for continuous enrollment is completed by the online Ed.D. program director. Clearance is given only if the student has met the following requirements: successfully completed course prerequisites; an overall GPA of 3.0 or better for all graduate work completed with no incomplete grade; an approved supervisory committee; an approved program of study on file in the graduate office, and completion of the diagnostic examination, and research tool requirements.

Please note due to the accelerated nature of this doctoral program students will not be allowed to progress through the program with more than one incomplete grade at a time. Students must demonstrate mastery of the content of each course in order to move forward with their cohort. If a student falls behind, a meeting with the program director and department chair should be arranged to organize an appropriate plan of action to help the student remain on track. In addition, from the Florida State University *Graduate Bulletin*:

A student who has completed the required coursework, passed the Preliminary Examination and submitted an Admission to Candidacy form to the Office of the Registrar, and continues to use campus facilities and/or receives faculty supervision, but **has not made a final dissertation submission** shall include in the required full-time load a minimum of two credit hours of dissertation per semester, including Summer term, until completion of the degree. Those with underload permission must register for at least two credit hours of dissertation per semester (or term). Underloads must be approved by the student’s academic dean. Before registering for dissertation hours, the student must consult the major professor as to the proportion of time to be devoted to dissertation work.
**Major Professor**

Upon acceptance into the program, students are primarily advised by the EdD Director and the EdD Student Advising Coordinator. By the end of the Fall 1 term, students are placed into advising groups based on their interests. Each group consists of a core group of faculty with shared research expertise, the advising team. The advising team is the main body that will evaluate students’ diagnostic exams during the Fall 1 semester. Shortly after the diagnostic exam, students will be assigned a major professor who will ultimately advise the DiP. At the same time, students will also be assigned to at least two other professors within their advising team who will continue to work with the student throughout the rest of their DiP research; together with the major professor, this group forms the DiP team that will evaluate the preliminary exam. Eventually, students will be assigned an additional faculty member from outside the department who will serve as the university representative—a requirement of all doctoral students at FSU.

**Supervisory Committee**

The supervisory committee or advising team will be in charge of the student’s work until the completion of all requirements for the degree. The appointment of the student’s supervisory committee must be completed by the end of the first academic year. The membership of the supervisory committee will be reported to the Dean of Graduate Studies.

The supervisory committee will consist of a minimum of four members of the graduate faculty, all of whom must have Graduate Faculty Status, one of whom is a representative-at-large of the graduate faculty drawn from outside the Department of Educational Leadership and Policy Studies and who is tenured. Additional members may be appointed if deemed desirable.

The representative-at-large is responsible for ensuring that University policies are followed, and that decisions made by the supervisory committee reflect the collective judgment of the committee. Therefore, the graduate faculty representative must be someone who is free of conflicts of interest with other members of the committee. If questions arise they should be referred to the Dean of Graduate Studies for resolution.

**Program of Study**

The student should prepare a complete plan of courses to be taken under the supervision of the major professor based on the online Ed.D. curriculum. This program of study must be signed by each member of the committee and the department chair. A signed program of study must be submitted to the Office of Academic Services and Intern Support (OASIS) by the end of the first academic year. It is necessary to list the semesters and years courses are to be taken in chronological order (past to present) to determine that university, department, and college requirements will be met. It is the student’s responsibility to make sure that he/she has met all degree requirements.
Upon receipt of a departmentally approved program of study, OASIS will review the proposed program to insure compliance with the make-up of the supervisory committee and requirements for inquiry skills. Forms for the doctoral program of study are available at https://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students

**Face-to-Face**

A student must participate in the three-day long professional learning seminar in Tallahassee during the Summer semester for each year they are enrolled. This Face-to-Face series is held during the seventh instructional week of the summer term which typically takes place around the third week of June each year; students should consult the FSU calendar for the official dates of the seventh week of the term.

**Dissertation Credits**

A student must earn a minimum of twenty-four dissertation credits and adhere to the continuous enrollment policy in order to complete the doctorate.

**Dissertation Credit Hour Fee:** There is a $70 per credit hour fee assessed for dissertation credit hours in the Online EdD. The purpose of this fee is to allow the program and department to provide enhanced academic and administrative support to students as students write, complete, and defend their dissertations in practice.

**Prospectus**

Prior to beginning their DiP research, EdD students must pass a prospectus defense and acquire IRB approval. The prospectus defense is a major milestone and will be evaluated by the full DiP committee. Every student who has been admitted to work toward a doctoral degree within the department must pass the prospectus defense before engaging in dissertation research. Specific to the Online EdD program, the prospectus defense serves an evaluation of whether the student has designed an appropriate research study that can be effectively executed in pursuit of the EdD.

The **Prospectus Defense Details**

**A. Content & Format**

There are five components to the prospectus defense:

1. a two-page (single-spaced) summary of DiP chapters one and two [focusing on the purpose, significance, and research questions associated with the study],
2. a full draft of DiP chapter three,
3. a pre-recorded presentation (10-12 minutes) highlighting the major components of DiP chapter three,
4. a projected timeline, organized by month, for completing the full DiP, and
5. a synchronous oral defense of components 1-4.

**B. Evaluation**
Faculty members on the full DiP committee will evaluate the degree to which the components, particularly component (2), adequately address the required components specified above. DiP committee members will review components (1) – (4) prior to meeting synchronously with the student to conduct component (5).

Students will either receive a pass on their first attempt of the prospectus defense, or will be required to revise and re-defend at a later date. The full DiP committee, led by the major professor, has final discretion on this matter and the associated timeline for any re-defense. Students receiving a pass may still be required to revise DiP chapter three based on the committee’s feedback. Students will not be able to begin conducting DiP research until a passing grade is received on the prospectus defense, and IRB approval has been obtained.

C. Process
Students will submit final versions of components (1) – (4) in Spring 2 via Canvas. The full DiP committee will review these components in advance of a synchronous defense that will take place ideally during April. As noted, this is only a projected timeline. Students will advance to the prospectus defense only when the major professor has determined the student has submitted and satisfactory prospectus. Upon successful completion of the prospectus defense, students should apply for IRB approval through the FSU Office of Human Subjects.

**Dissertation in Practice**

A doctoral dissertation in practice must be completed on a problem of practice relevant to the area of major. To be acceptable it must be an achievement in original research constituting a significant contribution to knowledge and represent a substantial scholarly effort on the part of the student.

The Dissertation in Practice (DiP) represents a public statement of doctoral quality research. Its designation as a dissertation in practice report emphasizes its practitioner based research focus. Unlike a traditional Ph.D. dissertation that are often written for a restricted community of scholars the DiP is directed at a wider audience, one that is focused on practitioners. In other words, your findings will have real world applicability for professional working in varied educational settings. As a scholar practitioner, you will produce a report that demonstrates both scholarly rigor and practitioner relevance. Therefore, the DiP adheres to specific research standards and protocols that insure the integrity of your work and the reputation of Florida State University.

The manuscript must be prepared according to the style and form prescribed by the department and must be submitted through TurnItIn. Formatting and clearance guidelines for the final electronic submission copy may be accessed from the Office of Graduate Studies website: https://gradschool.fsu.edu/academics-research/thesis-treatise-and-dissertation or by contacting the manuscript clearance advisor.

The minimum number of dissertation hours for completion of an Ed.D. degree is 24 semester hours.
Final approval of the dissertation by the entire supervisory committee is prerequisite to the awarding of the degree. This is true no matter how many hours a student has completed in dissertation or what grades have been recorded for the dissertation hours.

Please refer to the *Online Ed.D. Program Guide* for more details on the DiP template.

**Dissertation in Practice Defense**

The final milestone of the EdD program is the DiP Defense.

**A. Content & Format**

There are four components to the DiP defense:
1. a full draft of DiP chapter four,
2. a pre-recorded presentation (10-12 minutes) highlighting the major components of DiP chapter four,
3. a four-page executive summary of the DiP, suitable for sharing with key stakeholders, projected timeline, organized by month, for completing the full DiP, and
4. a synchronous oral defense of components 1-3.

**B. Evaluation**

The full DiP committee will receive components 1 – 3 at least two weeks before the synchronous DiP defense. During the defense, the full DiP committee will determine the extent to which students have adequately met the requirements as specified in this document.

Students will either receive a *pass* on their first attempt of the DiP defense or will be required to revise and re-defend at a later date. The full DiP committee, led by the major professor, has final discretion on this matter and the associated timeline for any re-defense. Students receiving a *pass* may still be required to revise the DiP based on the committee’s feedback.

**C. Process**

The timeline for the DiP defense is determined by the student and the major professor. Students are advised to adhere to any deadlines specified by the Graduate School, including deadlines to submit the pre-defense DiP draft for initial formatting review, and the post-defense, fully revised DiP for final review.

**Satisfactory Progress**

Students are expected to defend a DIP prospectus in the spring of their second year. Students who have not submitted a defensible DIP prospectus to their committee by May 31st of Summer 3 will be marked as making “Unsatisfactory Progress [Official Concern]” on their annual evaluation.
Candidates who have not submitted a defensible DIP to their committee by the last day of classes in Spring 3 (the final semester in this 3-year program) will be marked as making “Unsatisfactory Progress [Official Concern]” on their annual evaluation. Students who have not successfully defended their DIP by June 30 of the Summer 4 must submit a timeline to their major professor that backwards maps their dissertation completion by their fourth spring semester manuscript clearance deadline. Candidates who have not successfully defended their DIP by Spring 4 as stipulated in the agreed upon timeline will receive “Unsatisfactory Progress [Official Concern]” on their annual evaluation. Students with two consecutive Unsatisfactory annual evaluations will be dismissed from the program.

**Dissertation Hours Grading**

Students complete a dissertation completion timeline as part of their DIP prospectus defense. If a student has not adhered to this timeline over the course of a semester, they will be assigned a grade of “Unsatisfactory” for their dissertation hours for that semester. Appeals for special circumstances should follow the FSU grade appeal policy.

Benchmarks for “Satisfactory” dissertation hours grade Summer 3:

- IRB submission
- IRB approval
- Data collection begun

Benchmarks for “Satisfactory” dissertation hours grade Fall 3:

- Data collection completed
- Data analysis begun
- Draft of results submitted

Benchmarks for “Satisfactory” dissertation hours grade Spring 3:

- Draft of Chapter 4 submitted

**Time Limit for Completion of Degree**

It is University policy that all requirements for the doctoral degree must be completed within five calendar years from the time the student passes the preliminary examination or the student must pass a new preliminary examination. If the student’s major professor and/or Department Chair does not choose to either approve an Extension of Time (EOT) or require the student to take the preliminary exam and/or coursework again for readmission to candidacy, then the student may no longer be enrolled in that program or at Florida State University.

It is the policy of the Department of Educational Leadership and Policy Studies that any doctoral student who exceeds the five-year time limit for completion of the doctoral degree and who has exhausted any extension of time provided by the Dean of Graduate Studies may seek readmission to the degree program.

Within ten years following initial admission to candidacy, a former student seeking readmission must provide substantial evidence that he or she has maintained currency in the field of study through regular employment or scholarship and submit a prospectus and proposed timeline for
completion that the major professor considers defensible and reasonable, respectively. Upon readmission, the student’s supervisory committee shall require that the student register for the preliminary examination and set a date for the defense of the prospectus. Once the supervisory committee approves this prospectus, the student will be awarded a “pass” for the preliminary examination. The student must then remain continuously enrolled (see section on Continuous Enrollment) by completing a minimum of two dissertation hours while completing all requirements for the doctoral degree within five years from the new date of admission to candidacy.

If the former student is either (a) ten years beyond the date of initial admission to candidacy or (b) is within the ten years, but cannot present substantial evidence that he or she has maintained currency in the field since leaving the University, then readmission will be contingent on the student returning to the University to complete core courses essential to preparation for the regularly administered preliminary examination. These core courses will be identified by the supervisory committee and approved by the department chair. Once the courses are completed, the student will be required to pass the standard preliminary examination administered to all current students seeking admission to candidacy in the particular degree program.

**Graduation**

The student must apply for graduation at [http://registrar.fsu.edu/graduation/](http://registrar.fsu.edu/graduation/) during the first two weeks of the semester in which graduation is planned. If the student decided not to graduate during the semester after submitting an application, the student must notify the COE Graduate Director.

Students must be registered for a minimum of two hours of dissertation credit in the semester in which they apply for graduation.

**Academic Honor Policy**

A major concern of any educational institution, ranking with its concern for the advancement and dissemination of knowledge, is the maintenance of high standards of integrity and responsibility in the academic community. The program, Department and University recognize the responsibility of both faculty and students in developing and maintaining these standards.

The legal foundation for the coordinated efforts of faculty and students to uphold academic integrity and combat academic dishonesty is provided in the Student Conduct Code (FAC C22-3.04), which can be found in the Florida State University Student Handbook.

**Academic Honor Policy**

You can find the [most recent version of the FSU Academic honor policy here](http://registrar.fsu.edu/graduation/).
Responsibility

Each student shall be responsible for abiding by the Academic Honor Policy at all times. The instructor may further define in writing in the syllabus or other documents, the instructor's specification of the acts which shall constitute a violation of the Academic Honor Policy. Of required by the instructor, at the conclusion of each examination or submission of an assignment, each student shall sign a pledge that the student has neither given nor received aid from any unauthorized source during the examination or the assignment. Any student who observes cheating or violates the Academic Honor Policy is expected to report the violation to the instructor and/or the University judicial officer.

Grade Appeals

The purpose of the grade appeals system is to afford an opportunity for a student to appeal a grade if the student feels that the grade was inequitably awarded in that it involved a gross violation of the institution's own specified grading standards.

Step 1. Within 15 class days (defined throughout the Grade Appeals System as Mondays through Fridays during regular fall, spring, and summer semesters, as noted in the FSU Academic Calendar maintained by the University Registrar. Class days are not dependent on whether an individual student has class on a particular day) following the date that final grades are made available to students, the student must contact the instructor in question to discuss the grade and attempt to resolve any differences. The student should document any attempts to contact the instructor in order to establish that the appeal was begun within this 15-class-day period. If the instructor is not available, the student should provide that documentation to the instructor’s program or department chair. It is expected that the student will first attempt to resolve the grade dispute with the instructor; however, either the student or the instructor may consult with the appropriate department chair, school director, or designee during this process.

Step 2. If no resolution is reached within this 15-class-day period, after the student’s documented attempt, the student has an additional 10 class days to submit a written statement to the department chair, school director, or designee. This statement must include an account of attempts to resolve the issue, as well as the evidence that forms the basis for the appeal. Within 20 class days thereafter, the department chair, school director, or designee will set a date for a meeting of a grade appeals screening committee composed of three students enrolled in the academic unit offering the course to review the appeal. These students should be either undergraduate or graduate students, depending on the enrollment status of the student challenging the grade. The meeting should occur within that 20-class-day period, if practicable. Appropriate students who have no conflict of interest will be chosen to serve on this screening committee by a student organization associated with the program or department, if such an organization exists. If none exists or if members of such an organization are not available, the department chair, school director, or designee will select appropriate students who have no conflict of interest. Both the
student and the instructor may attend the meeting, as may the department chair, school director, or designee.

The role of the screening committee is solely to determine whether the student has presented sufficient evidence to warrant further review. Within five class days after this meeting, the screening committee will render its decision in writing (indicating that they recommend/do not recommend further review) to the department chair, school director, or designee, the student, and the instructor. A negative decision will end the appeal. A positive decision will trigger the next step in the process.

**Step 3.** Within 15 class days of a positive decision from the grade appeals screening committee, the department chair, school director, or designee will appoint and arrange for a meeting of a grade appeals board. The meeting should occur within that 15-class-day period, if practicable. The board is composed of three faculty members and two students other than those who served on the screening committee. These students should be either undergraduate or graduate students, depending on the enrollment status of the student challenging the grade.

The purpose of this board is to determine whether or not to uphold the final grade assigned by the instructor. The board will consider only the evidence provided by the student and the instructor in making the determination. The student, the instructor, and the department chair, school director, or designee may attend the meeting.

The grade will be upheld unless the evidence shows that the grade was awarded in an arbitrary, capricious, or discriminatory manner, as a result of a gross violation of the instructor’s own evaluation (grading) statement. If the original grade is not upheld, the board will recommend that an alternative grade be assigned by the department chair, school director, or designee.

If the student has evidence that this grade appeals process has deviated substantially from these established procedures, resulting in a biased decision, the student may consult with the Office of Faculty Development and Advancement regarding referral to the Faculty Senate Student Academic Relations Committee.

Scholarly Engagement Policy

Effective fall 2016, the doctoral residency requirement was replaced with the Scholarly Engagement requirement. Doctoral students are still required to complete a minimum of 24 dissertation hours and many students complete far more than this minimum. The Continuous Enrollment policy also still applies.

The Scholarly Engagement requirement ensures that doctoral students are active participants in the scholarly community. Each academic unit with a doctoral program will include a program specific statement in its Graduate Handbook describing how its students can meet the Scholarly Engagement requirement annually.

Supervisory Committee

A minimum of 4 members who hold Graduate Faculty Status (GFS) at FSU is required – 2 members, including the major professor, must be from the major in which the student will receive a degree. One member, the University Representative, shall represent the graduate faculty at-large. Additionally, the University Representative must be a tenured member of the FSU faculty.

**Committee Members (Signed and Typed)**

**College of Education**
**Doctoral Student Program of Study**
**Revised Deadlines – March 2017**

1. A doctoral student will submit to OASIS, no later than 12 months after enrollment, a completed Program of Study that includes the Major Professor and Department Chair signatures.

2. The two departmental committee member names and signatures must be submitted to OASIS in the semester in which the doctoral student is registered for the Preliminary Exam via the College of Education Supervisory Committee Revision Form.

3. The name and signature University Representative must be submitted to OASIS with the doctoral student’s Dissertation Prospectus Clearance Form via the College of Education Supervisory Committee Revision Form.

Appendix F

Scholarly Engagement Policy

The goal of the Scholarly Engagement requirement is to prepare doctoral graduates who can acquire, evaluate, communicate, extend, and apply knowledge through active participation in the scholarly practitioner community.

Annual Confirmation of Scholarly Engagement. Each year, as part of the annual review process, doctoral students must demonstrate to their major professor’s satisfaction either 1) completion of any benchmark activity or 2) concrete progress toward the completion of any benchmark activity.

Prerequisites to be completed before key milestones in doctoral progression: Certain benchmarks must be completed before students are allowed to 1) take the preliminary exam, 2) defend a prospectus, and 3) register for graduation.

BENCHMARKS FOR SCHOLARLY ENGAGEMENT

Before Preliminary Exam
- Develop a resumé or CV
- Complete the CITI human subjects training (to be completed in EDF6486)

And at least one of the following:
- Attend a professional development conference/meeting or
- Attend/watch at least 2 Relevant Research Roundtable (R3) presentations

Before Prospectus Defense
- Updated resumé or CV

And at least one of the following:
- Attend at least 1 state, regional, or national conference (professional or research association)
- Attend/watch an FSU professional development seminar/workshop

Before Graduation
- Updated resumé or CV

And at least one of the following:
- Present at a national, state, regional, or local conference/professional development seminar or
- Submit an article to a professional organization newsletter and/or journal
Appendix G

Graduate School Preliminary Exam Policy

Please note that the most up-to-date policy is available online in the Graduate Bulletin.

FSU Graduate School Preliminary Exam Policy

Satisfactory completion of a preliminary examination shall be required for admission to candidacy for the PhD degree. No student may register for dissertation hours prior to the point in the semester in which the preliminary examination was passed. An admission to candidacy form must be completed and filed in the Office of the University Registrar prior to registration for dissertation hours. After completion of the admission to candidacy process, the student may retroactively add dissertation hours for that semester in which the preliminary examination was completed. Retroactive changes are only permitted if the preliminary examination is passed by the end of the seventh week of the semester. For term specific deadline dates, please refer to the “Academic Calendar” in the Registration Guide.

The preliminary examination is designed to test scholarly competence and knowledge and to afford the examiners the basis for constructive recommendations concerning the student’s subsequent formal or informal study. The form and content of this examination will be determined by the department, college, school, or examining committee (typically, but not necessarily the same composition as the supervisory committee) administering the degree program. Prior to the examination, the student’s examining committee will determine whether the student 1) has a 3.0 average, and 2) has progressed sufficiently in the study of the discipline and its research tools to begin independent research in the area of the proposed dissertation.

The chair of the major department, the academic dean, and the Dean of The Graduate School may attend any session of the supervisory or examining committee as nonvoting members. A member may be appointed to the examining committee at the discretion of the academic dean or Dean of The Graduate School or on recommendation of the major professor. Normally, the examining committee will be identical with the supervisory committee.

The examining committee will report the outcome of the examination to the academic dean: passed, failed, additional work to be completed, or to be re-examined; the report following the reexamination must indicate the student either passed or failed. The results of the examination will be reported to the Office of the University Registrar for inclusion in the student’s permanent record.

If a student fails the preliminary examination before being admitted to candidacy, a re-examination may be offered by the student’s supervisory committee or other relevant decision making body within each department or unit, per that department or unit’s doctoral student handbook. The Academic Dean’s office should be notified of the outcome of any preliminary exam attempt.
Students can take the preliminary examination for admission to candidacy only two times. A second failure on the preliminary exam makes the student ineligible to continue in the degree program. The second attempt at the preliminary exam shall occur no sooner than six full class weeks after the results of the first attempt are shared with the student. For the purpose of this policy, a “full class week” is defined as a week with five days during which classes are held at FSU. Students must be registered separately for their first and second attempt, if necessary within the same semester, and must receive either a “pass” or a “fail” grade for each attempt.

An exception request regarding the timing of the re-examination can be submitted for consideration to the Academic Dean’s Office by either the student or the supervisory committee. Students who allege that academic regulations and/or procedures were improperly applied for the re-examination of their preliminary exam may have their grievances addressed through the general academic appeals process.
