

## THE FLORIDA STATE UNIVERSITY COLLEGE OF EDUCATION

### **BUSINESS AND INDUSTRY**

#### **Lindy Benton**

Lindy Benton has worked in the healthcare information technology field for more than 25 years and is currently the President and CEO of Vyne, a provider of secure healthcare communications, electronic attachment and health information exchange solutions to the hospital, dental practices and payer markets. Lindy holds a Bachelor of Science in Education and a Master of Science in Multi-Handicapped Education from Florida State University, with extended post graduate work in Measurement and Statistics. This foundation led to her early work in special education and pursuit of emerging technologies to support effective

communication for students. Later, at Digital Equipment Corporation, she was the division manager responsible for healthcare business in the Southeast. Lindy went on to Cerner Corporation, where she was in leadership for 15 years. She then served as an executive at The Sage Group, managing a \$350 million division with 1,400 employees. Lindy is a member of the Foundation Board for Florida Hospital for Children, a fellow with the Health Information and Management Systems Society (HIMSS) and serves on executive councils for several health-related committees and industry associations.
