Section 1: THE HIGHER EDUCATION PROGRAM

Land Acknowledgment
We, within the Higher Education Program, acknowledge that our Program is located on the indigenous lands of the Apalachee Nation, the Muscogee (Creek) Nation, the Miccosukee Tribe of Florida, and the Seminole Tribe of Florida. We highlight and pay respect to this history because we understand how the state of Florida and Florida State University came to be settled on these lands. We recognize this land as scarred with a painful past of enslavement, settler colonial violence, the desolation of culture, and the forced removal of indigenous bodies. Despite this, we respect the cultural and ceremonial practices these Indigenous nations maintain in and around Tallahassee today. As educators, we honor the knowledge of these tribes and their people and acknowledge that Indigenous students, faculty, and administrators are vital to higher education. We embrace the decolonization of our educational system and commit to disrupting suppressive systems through the explorations of many truths and lived experiences and creating room for those who are often excluded by harmful colonial erasures in our practice and pedagogy.

Mission Statement
The mission of the higher education program is to prepare leaders who contribute solutions to the challenges facing higher education and society. The program provides a student centered learning community; promotes a culture of critical inquiry; emphasizes the discovery, integration, and application of knowledge about higher education; fosters a caring, collaborative, and inclusive environment; and encourages educational transformation and change.

Core Values
We value and attempt to create a learning community in which students develop a framework of knowledge that enables them to think critically, articulate values, and put their knowledge and skills to use. We value and seek to develop collaborative relationships in which faculty, students, staff, and practicing professionals identify and share in the realization of mutually valuable learning outcomes.

We value and try to create an open community based upon democratic ideals in which freedom of expression is protected, civility is affirmed, and appreciation and understanding of individual differences are honored and respected. In this light, we value a caring community in which the well-being of each person is important, and a life-net supports every member.

Pillars
Within our values, we hold three pillars as central to our teaching, research, and service to the university and higher education profession. Leadership, Social Justice, and Student Success are key components to program. We aim to train students and disseminate knowledge around these topics, as evident by our course offerings, publications, and professional involvement. Leadership, Social Justice, and Student Success guide our program and can be found in various aspects of the curriculum and events we organize for our students.
General Information
Graduate study in higher education prepares individuals for careers in administration and leadership in public and private two-year colleges, four-year institutions, and universities. Graduates work in a variety of service, research, and teaching programs in education agencies and organizations throughout the United States and abroad. Their careers offer the satisfaction of serving human needs and realizing valued societal goals. Graduate study in higher education can also improve opportunities for advancement and mobility as well as offer intrinsic rewards that stimulate productivity, enhance expertise, and renew motivation.

At Florida State University (FSU), the Higher Education Program has earned a national reputation for excellence in professional training. Established in 1957, the FSU program consistently ranks among the top programs in the United States in popular press publications such as U.S. News & World Report and in reputation studies conducted among higher education leaders, ranking 16 as of 2019. Graduate study options lead to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees.

A student’s program of study is designed focus on one of two concentrations: either the Student Affairs track or the Public Policy of Higher Education track. By choosing a concentrations, a student will be able to combine elective and core courses with other learning experiences in order to pursue their unique educational and professional goals. In general, curricula are designed to provide a knowledge base about the professional field and a theoretical framework to guide research and career development in higher education.

The faculty provide a variety of expertise essential to the continuing development of higher education as a field of study. Graduates make similar contributions, and our alumni constitute an important network of individuals who serve nationwide in positions of leadership within higher education institutions, research organizations, and policy-making agencies.

Doctoral Degree Programs
The Higher Education Program is located in the Department of Educational Leadership and Policy Studies within the College of Education. The Higher Education Program offers two Ph.D. concentrations for researchers: Student Affairs and Public Policy of Higher Education.

Financial Assistance
Tuition and Fee Waivers
Partial tuition and fee waivers are usually available in the fall and spring with most assistantships. Tuition and fee waivers are governed by the policies of the FSU Graduate School and are awarded through the College of Education. In some years funds may be limited, and every good faith effort is made to assign the money fairly and wisely. The funds available may not be sufficient to fully fund every student. Summer funding is very limited. It is the student's
responsibility to find additional funding sources, usually through the Student Financial Aid Office.

**Waiver Guidelines (New as of 2020)**
The need for guidelines from the College of Education became clear upon review of the progress of doctoral students being supported by waivers. A new COE tuition waiver allocation guideline for doctoral students has been created and will go into effect for newly admitted and current students in Fall 2020.

For doctoral students, completion of all pre-dissertation coursework must be completed within 3 academic years. For doctoral candidates, a maximum of 54 dissertation credits or 6-semesters, with a 2-semester warning at 36 credits, will be available. A student can receive funding during both coursework and candidacy per the above guidelines.

**Can exceptions to the COE Tuition Waiver Guidelines be requested?**
Exceptions can be requested on a case by case basis for students who have experienced extenuating circumstances. These exceptions must first be approved by the department chairs, who will then request the exception from the Dean.

**Fall and Spring Semesters**
Nine hours of coursework is the minimum required to receive a tuition and fee waiver in the fall or spring. Students must be registered for at least nine hours by the time early registration closes or will lose the tuition and fee waiver. If you have questions about waivers, hours, or deadlines, see the ELPS program assistant in 1209 Stone.

**Summer Semester**
Summer tuition and fee waivers are determined each spring prior to the summer term. The FSU Graduate School makes this determination. In past years, the number of hours needed for full-time enrollment depended on the summer session or sessions in which courses are taken. Allocations in recent years are shown below to help students plan the program of study for the degree:

<table>
<thead>
<tr>
<th>Session</th>
<th>Minimum Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>9 hrs</td>
</tr>
<tr>
<td>B</td>
<td>5 hrs</td>
</tr>
<tr>
<td>C</td>
<td>5 hrs</td>
</tr>
<tr>
<td>D</td>
<td>7 hrs</td>
</tr>
<tr>
<td>F</td>
<td>7 hrs</td>
</tr>
<tr>
<td>Combination of Above (e.g. B and C credits)</td>
<td>9 hrs</td>
</tr>
</tbody>
</table>

**Academic Common Market**
The academic common market is an interstate agreement among southern states for sharing academic programs. FSU permits in-state fees for students from states who are members of the Academic Common Market of the Southern Regional Education Board if that state recognizes the Higher Education Program at FSU. Currently these states accept one or more graduate
degree programs in Higher Education from FSU: Alabama, Arkansas, and Louisiana. To enroll as an academic common market student an applicant must obtain certification from the common market coordinator in the student’s home state. More information about this opportunity, including specific information for each state may be found at http://home.sreb.org/acm/choosestate.aspx.

Section 2: DOCTORAL DEGREE PROGRAM

Outcomes of the Doctoral Degree Programs
Upon completion of the doctoral degree, graduates will have adopted a code of professional ethics and enhance their critical thinking to work through complex and emerging problems in higher education, both theoretical and practical. They will also be able to demonstrate knowledge and application of approaches used in administration, leadership, and research.

Doctor of Philosophy (Ph.D.)
A Ph.D. student will demonstrate knowledge of theory and research. Ph.D. students will gain expertise in their chosen concentrations and expertise over the course of their studies. Using these concentrations as a basis, doctoral students will learn how to develop testable research questions or hypotheses, construct corresponding literature reviews, and develop strengths in methodologies that will allow them to devise a policy-relevant original research study that meets the requirements of the students’ discipline of inquiry. Ultimately, students will graduate with the ability to conduct independent research of a quality required by the field’s major associations and academic publications.

Admission Requirements
An applicant for admission to the Ph.D. program must meet the following three requirements: (1) a GPA of 3.0 or better on a 4.0 scale for the last two years of undergraduate study, (2) a graduate GPA of 3.5 or better on a 4.0 scale, and (3) a GRE score of 149 V, 147 Q, and 3.5 AW.

Official TOEFL results are required of all international applicants whose native language is not English and who have not studied in an English-speaking country for at least one academic year. A minimum score of 550 on the paper-based test, 213 on the computer-based test, or 80 on the internet-based test is required for admission to the university, even with a master’s degree from an American college, to be considered for admission to a doctoral. Contact the Office of Admissions for more information.

The Ph.D. program is highly selective, and meeting minimum requirements is not a guarantee of admission. Factors which are relevant to the admissions decision include, but are not limited to, management and leadership experience in higher education, high motivation to achieve personal and professional goals consistent with the program’s mission, and evidence of outstanding written and oral communication skills.
Ph.D. Degree Requirements
The Ph.D. degree requires a minimum of 57 semester hours of coursework beyond the master's degree with a 3.00 minimum GPA and 24 hours of dissertation credit. The minimum of 57 semester hours must include 12 hours of higher education core courses, 9 hours in discipline courses, 21 hours of research courses, 15 hours in student concentrations.

All Ph.D. students must complete 9 credit hours for an outside discipline. In consultation with the student’s advisor a student should select a discipline or concentration outside of the Department of Educational Leadership and Policy Studies. All nine of these hours must be letter-graded (A, B, C).

Additional substantive and/or research courses may be required by a supervisory committee, to enable the doctoral candidate to pursue competently his/her dissertation research.

Transfer Requirements
Any students currently enrolled in a graduate program at FSU who desires to transfer into any program in the Department of Educational Leadership and Policy Studies, including the Higher Education program, must be cleared by the ELPS department chair prior to admission.

Transfer of Courses
A student may transfer up to 6 semester hours of relevant course credit into the doctoral program, provided the student received a grade of "B" or better; the transfer courses are approved by the student's advisor; and the classes were taken after the completion of the master's degree and within 5 years of admission to the doctoral program. These transfer hours may be counted toward the completion of the program of studies leading to the doctoral degree if approved by the student's academic advisor. The student must obtain written approval for transfer credit.

Substitution of Courses
An additional 6 semester hours of relevant course credit may be substituted for courses required as part of the program of study for the doctoral degree, provided the student received a grade of "B" or better and the classes were taken within 5 years of admission to the doctoral program, and the substituted courses are approved by a faculty member offering the course at FSU as equivalent in content to the course offered at FSU. In any case in which a course is substituted under this paragraph, the student must take the same number of semester hours in a course relevant to the program of study in higher education. Whenever a course is substituted, the student must select an alternative course or courses with the consent of the major professor. The student must obtain written approval for substituted credit.

Courses that are transferred or substituted will not count toward GPA or scholarly engagement requirements for the doctorate.
Incomplete Courses
Incomplete ("I") grades will be recorded only in exceptional cases when a student, who has completed a substantial portion of the course and who is otherwise passing, is unable to complete a well-defined portion of a course for reasons beyond the student’s control. Students in these circumstances must petition the instructor and should be prepared to present documentation that substantiates their case. Incomplete grades will not be granted in order to allow students to do extra coursework in an effort to increase their grade.

In order to assign an incomplete, the instructor will indicate a time frame for resolution of the grade and the default grade to be assigned if the student does not complete the remaining academic work. It is the student’s responsibility to complete the remaining academic work within the agreed-upon time frame.

Scholarly Engagement Policy
“The purpose of the Scholarly Engagement requirement is to ensure that doctoral students are active participants in the scholarly community. To meet the Scholarly Engagement requirement, doctoral students should interact with faculty and peers in ways that may include enrolling in courses; attending seminars, symposia, and conferences; engaging in collaborative study and research beyond the university campus; and utilizing the library, laboratories, and other facilities provided by the University. The goal is to prepare students to be scholars who can independently acquire, evaluate, and extend knowledge, as well as develop themselves as effective communicators and disseminators of knowledge. Each academic unit with a doctoral program should include a program specific statement in its Graduate Handbook describing how its students can meet the Scholarly Engagement requirement” (FSU Graduate Bulletin, 2019-2020).

Higher Education Program Doctoral Scholarly Engagement Requirements

Purpose: The goal of the Scholarly Engagement requirement is to prepare doctoral graduates who can acquire, evaluate, communicate, and extend knowledge through active participation in the scholarly community.

Annual Confirmation of Scholarly Engagement: Each year, as part of the annual review process, doctoral students must demonstrate to their faculty advisor’s satisfaction either 1) completion of any benchmark activity or 2) concrete progress toward the completion of any benchmark activity.

Prerequisites to be completed before key milestones in doctoral progression: Certain benchmarks must be completed before students are allowed to 1) take the preliminary exam, 2) defend a proposal/prospectus, and 3) register for graduation.
**BENCHMARKS FOR SCHOLARLY ENGAGEMENT**

**Before Preliminary Exam**
- Attend at least 2 Relevant Research Roundtable (R3) presentations
- *and* Complete the FSU Responsible Conduct of Research certification
  (http://humansubjects.magnet.fsu.edu/training/trainingslides.html)

**Before Prospectus/Proposal Defense**
- Attend at least 1 prospectus defense as an observer
- *and* attend at least 1 dissertation defense as an observer
- *and* at least one of the following:
  - Attend at least 1 national conference (professional or research association)
  - Attend an outside/external methodological workshop
  - Attend an FSU professional development seminar/workshop

**Before Graduation**
- Present as first or second author/presenter at a national conference
- *or* Present as the first author/presenter at a state or regional conference
- *or* Publish an article as the first or second author in a peer-review journal
  (article accepted or “in press” by time of registration for graduation)

**Program of Study**

The program of study is a form listing coursework leading to the completion of the degree program and includes a student’s anticipated timeline for award of a doctorate. A student’s advisor will help begin the planning for a program of study, but the program of study is completed with the advice of and approved by the chosen major professor and supervisory committee. Each student will submit a program of study to OASIS within the College of Education no later than twelve (12) months after enrollment including Major Professor and Department Chair signatures. The program of study may be modified before completing the preliminary examination. The two departmental committee member names and signatures must be submitted to OASIS in the semester in which the doctoral student is registered for the preliminary exam via the College of Education Supervisory Committee Revision Form. The name and signature University Representative must be submitted to OASIS with the doctoral student’s Dissertation Prospectus Clearance Form via the College of Education Supervisory Committee Revision Form. The Department Chair and College of Education Academic Dean must also approve a student’s program of study. Forms and guidelines for planning a program of study are available OASIS/COE web site at: http://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students.

Advanced Quantitative Methods Course Recommendations & Sequence:
- EDF 5414 Introduction to Large Scale Datasets (Spring 2021, taught by ELPS faculty)
- EDF 6471 Quasi-Experimental Data Analysis (Spring 2022, taught by ELPS faculty)
- EDF 5401 General Linear Modeling (pre-requisite for those wishing to take advanced courses through the EPLS department)

Advanced Qualitative Methods Course Recommendations & Sequence:
- EDF 6476 Advanced Qualitative Methods (Spring, taught by ELPS faculty)
- EDF 6479 Qualitative Data Analysis (Summer- online, taught by ELPS faculty)

---

2 Order of classes denotes recommended sequence
3 Order of classes denotes recommended sequence
4 Preliminary Examinations for the Higher Education Program have been preset for their respective academic terms. Prelims will begin the first Saturday at 8am of the academic term and will end the second Sunday at midnight (12am) of the academic term.
Major Professor
Students begin doctoral study under the guidance of a temporary advisor assigned to assist in developing a program of study. Subsequently, upon mutual agreement by the student and the faculty member, the student will select a major professor who works closely with the student throughout the doctoral program and guides the student’s dissertation work. The major professor must have graduate faculty status in the higher education program. It is expected that the student will work with their temporary advisor to select the best professor to serve as their major professor within the initial year of study in the program. The major professor may or may not be the temporary advisor assigned to students at the beginning of the program.

Supervisory Committee
Following the selection of the major professor, the student should select a supervisory committee prior to registering for the preliminary examination. The selection of a supervisory committee should reflect the proper composition of expertise needed to direct the student’s dissertation with particular attention to the selected dissertation topic. The student should make the selection of the supervisory committee with the assistance of their major professor.

The supervisory committee will consist of a minimum of four members, all of whom must be FSU faculty and have graduate faculty status. One committee member must be a tenured faculty member from outside the Department of Educational Leadership and Policy Studies to serve as the “university representative.” Additional details about the requirements for the supervisory committee are available in the FSU Graduate Bulletin.

Research Courses
Four research courses are required of all doctoral students. These four courses are the following: EDF 6475 Qualitative Methods in Education; EDF 6486 Applied Research Methods for Educational Leadership and Policy; EDF 5400 Basic Descriptive and Inferential Statistics Applications; and EDA 6930 Literature Review (or EDH 6935 Prospectus Development). Additional research courses will include EDF 5649C Applied Education Policy Analysis and two advanced methods courses for Ph.D. students.

The research courses are sequenced to assist the student in developing competence in the conduct of inquiry, knowledge of research methods related to educational leadership, skill in appraising research, and the ability to construct an integrative literature review and prospectus.

Developing a Broad, Outside, or Multi-Disciplinary Perspective
Students should take courses to develop a broad or multi-disciplinary perspective on topics affecting higher education. All PhD students must complete 9 credit hours from a focal disciplinary perspective. Students can fulfill this requirement by completing coursework in an outside discipline (e.g., sociology, political science) or taking a cohesive series of courses related to their planned dissertation from multiple programs/departments/disciplines. Students should
consult with their academic advisor or dissertation committee chairperson to identify appropriate courses, which must be approved by student’s advisor as part of their program of study.

Advanced Individual Study Options
Students whose advisor determines that they have an adequate number of research methods courses may elect up to six (6) semester hours of Supervised Research (EDH 5915) or Directed Individual Study (DIS) (EDH 5906). Graduate policy prohibits students from taking more than six hours of supervised research towards completion of the degree. The program discourages use of the DIS because a DIS does not afford the student opportunity for interaction with other students engaged in the study of a particular subject, nor does this option permit award of graded credit. Furthermore, a DIS does not result in the allocation of adequate student credit hours in relation to faculty effort and may operate to force cancellation of courses due to insufficient enrollment.

Internships
Another elective option for students is a Doctoral Internship (EDH 5942). For students needing practical experience, internships can be valuable by providing opportunity for the application of theory to the problems of practice. With approval of the advisor, internships may be arranged in various college offices or government agencies.

Preliminary Examinations
Clearance for the preliminary examination is done by the Graduate Coordinator for the College of Education. Clearance is only given if the student has met the following requirements: registration for the preliminary examination; an overall GPA of 3.0 or better for all graduate work completed; a supervisory committee (including University Representative); and an approved program of study on file in the graduate office. Students who register for the preliminary examination must be in their last semester of coursework for the doctorate or have no more than 6 hours of coursework remaining on the approved program of study.

The preliminary examination is administered in the spring and summer semesters so students can plan for dissertation hours; exams will follow the preset schedule of beginning the first Saturday (8am) and lasting through the second Sunday (12am midnight) of the academic term. The examination is prepared by a committee of higher education faculty in which one question is prepared. Pairs of faculty members evaluate answers for this examination.

Expectations of Preliminary Responses
When responding to the prompt, students will be expected to produce a paper that a) incorporates concepts, theories, and literature from the core coursework, b) addresses the problem(s) from a perspective drawn from their concentrations course work, and c) outlines a research or evaluation plan consistent with their methodological training. A comprehensive
rubric, detailing faculty expectations for strong exam papers, will be provided in the weeks leading up to the examination. In general, however…

a) Students will be expected to demonstrate an understanding of, and an ability to use, professional and academic literature on topics discussed during their core courses. Although citations are expected, the quantity of citations is considered of secondary importance relative to the appropriate synthesis of relevant literature to support comprehensive, coherent, and compelling arguments.

b) Students are expected to incorporate the conceptual, theoretical, and methodological literature from their coursework throughout their examination. Although students may take a variety of approaches to identify key issues needing to be addressed for a particular prompt, students are expected to clearly articulate the perspective from which they are approaching the problem (e.g., public policy, student development, sociology, institutional leadership, equity).

c) Students are expected to outline a defensible plan for applying an appropriate assessment, evaluation, or research design to further examine the issues underlying the problems outlined in the prompt. Students should propose designs consistent with their foci during methodological coursework. Successful exams may propose qualitative, quantitative, and/or mixed methods. Regardless of the specific methodological approach, students must justify their methodological choices using arguments drawn from and supported by the appropriate methodological, theoretical, and topical literature.

Rules and Responsibilities

a) Students will have one week to complete the examination. Late submissions will be considered as failed exams.

b) The exam should not exceed 25 pages, and should not be shorter than 15 pages, of text including title page, abstract (100-250 words), response, references, appendices, and any footnotes/endnotes. The prompt will include requirements for broad sections and approximate ranges of page length for each; adhering to these requirements is necessary for demonstrating compliance with preliminary examination guidelines. Pages should include one-inch margins on all sides, be double-spaced, single-sided, and 12-point Times New Roman font (or equivalent-sized font) should be used. Submissions must be made in Microsoft Word.

c) The exam is to be formatted (including citations and references) according to the most recent guidelines of the American Psychological Association. Tables and figures may be placed in text close to where they are mentioned or may be references in the text and placed at the end of the paper.
d) Students are required to adhere to the Florida State University’s Academic Honor Policy (http://academichonor.fsu.edu/policy/policy.html), and may not receive any outside assistance while completing the exam. For example, once the exam has begun, students may not share documents, references, resources, notes, etc. Nor may students make use of friends, family, colleagues, or professionals to review, edit, proofread, or format the exam.

e) However, students are permitted to use any resources typically available to FSU graduate students, including the internet, library resources, course materials and notes, books, articles, and software.

f) Questions about the examination must be submitted directly to the faculty member in charge of the preliminary examination for that semester. All submitted questions will be reviewed and, if answered, will be shared with the entire group of students completing the exam. Students should assume, however, that all the information necessary for successful completion of the examination is available via the Canvas site. Students are responsible for submitting the completed exam even if their questions remain unanswered during the exam period.

**Preliminary Examination Retake Policy**
If a doctoral student fails the preliminary examination, per Florida State University policy, if a student fails the preliminary examination prior to admission to candidacy, a re-examination may be requested, but it must be recommended by the student’s supervisory committee and approved by the Academic Dean’s Office.

*Students can take the preliminary examination for admission to candidacy only two times.* At least one semester of additional preparation is needed before the re-examination. A second failure on the preliminary exam makes the student ineligible to continue in the degree program and must exit the program.

Students should consider the benefits and potential risks of enrolling in EDH5906 - Directed Individual Study (i.e., dummy hours). It is the sole responsibility of the students when making such course enrollment decisions, and students decide to enroll in such courses at their own risk. No exceptions or adjustments will be made to the preliminary examination retake policy because students decide to enroll in dummy hours.

**Preliminary Examination Appeal Process**
If a doctoral student fails the preliminary examination in the Educational Leadership and Policy Studies (ELPS) department, the student shall have the right to appeal the decision.

To initiate an appeal, the student should present the appeal to their program coordinator, their advisor, and the department chair within five business days of receiving the results. Once the Chair has received the appeal, the Chair will present the appeal to the Department Advisory Committee (DAC) for their action within two weeks of receiving the appeal. A committee of
two ELPS faculty members (who were not involved in the examination or defense as a moderator or grader) and one Higher Education doctoral candidate will be assigned to review the decision. Once the review has been conducted, the sub-committee will report their findings to the ELPS Chair within three weeks of having received the appeal. The Chair will then issue a final decision on the matter to the student and the appropriate program faculty within two weeks of receiving the committee’s decision.

Should the student not be satisfied with the department’s response, a student can follow the General Student Grievance process if the student feels that policy or procedure were not followed (versus arguing the grading of the exam). This really is more appropriate. This would not go into your handbooks but rather could be discussed with a student when appropriate. The General Student Grievance process can be found at: [https://fda.fsu.edu/academic-resources/academic-integrity-and-grievances/general-academic-appeals-student-grievances](https://fda.fsu.edu/academic-resources/academic-integrity-and-grievances/general-academic-appeals-student-grievances)

**Admission to Candidacy**
Satisfactory completion of a preliminary examination is required for admission to candidacy for the doctoral degree. A student must be admitted to candidacy for at least 6 months prior to the granting of the doctoral degree. All requirements for the doctoral degree, including a successful dissertation defense, must be completed within five calendar years from the time the student has been admitted to candidacy.

Dissertation credits may not be taken until a student is formally admitted to candidacy. After completion of the Admission to Candidacy process, the student may retroactively add dissertation hours for the semester in which the preliminary examination was completed if the preliminary examination was passed by the mid-point of the semester. This date will be posted on the Registrar’s calendar. Students who fail or receive an incomplete (“I”) in the preliminary examination will have a block placed on their registration for dissertation hours until the preliminary examination is successfully passed and the "I" grade is changed to passing ("P"). If a student received an incomplete in a previous semester and completes the examination within the first 8 weeks of the next semester, the student will be allowed to complete a late drop/add and change course hours to dissertation hours. This process is not allowed for the same semester a student initially registers for the preliminary examination.

**Prospectus and Dissertation**
The Ph.D. dissertation is expected to involve original research constituting a significant contribution to knowledge that includes the study’s implications for further research and theory development.

After a student has passed the preliminary examination and becomes a doctoral candidate, he/she may enroll for dissertation hours. Twenty-four (24) hours of dissertation credit must be earned in this period before a student can defend the dissertation and be awarded the degree. A maximum of 12 dissertation hours can be taken in one semester. Students receiving assistantships must enroll for a minimum of 9 hours (of which 2 must be dissertation hours).
Domestic doctoral students without an assistantship may opt for part-time status with the approval of their program, in which case they must enroll for a minimum of 2 dissertation hours.

While enrolled for dissertation hours, students are expected to demonstrate progress towards completion of the degree. Doctoral students must produce a product for review by the major professor that is commensurate with the number of dissertation hours in which the student is enrolled. This product will be evaluated by the major professor at the end of each semester in order to determine whether the student should receive a satisfactory grade for progress on dissertation research. The major professor and supervisory committee will consider these products in assessing student progress towards degree completion on an annual basis.

During this period of enrollment, a research prospectus must be prepared that follows the guidelines of the College of Education. A copy of the Prospectus Guidelines and Clearance Procedures may be obtained at [http://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students](http://education.fsu.edu/student-resources/student-academic-services-oasis/for-graduate-students). A student should work closely with their major professor on the research prospectus for a dissertation study. A final draft of the prospectus will be examined by the supervisory committee and suggestions made for perfecting the proposal. The candidate will need to explain and defend the prospectus at the defense held with the members of the supervisory committee. The Department Chair, using a form provided in the Prospectus Guidelines and Clearance Procedures, must then approve the prospectus.

After the prospectus is approved, the student may begin the independent research that will culminate in the dissertation. To conform to dissertation requirements set by the University, the student should obtain a copy of Guidelines and Requirements for Thesis, Treatise, and Dissertation Writers in the Graduate Student Handbook at [http://www.gradstudies.fsu.edu/New-Current-Students/Graduate-Student-Handbook](http://www.gradstudies.fsu.edu/New-Current-Students/Graduate-Student-Handbook). Students will initially submit the final draft of the dissertation to the major professor for review. After the review by the major professor, the student will be advised on when to distribute copies of the manuscript to the supervisory committee and how to schedule the date, time, and place of the defense. Formatting and clearance guidelines for the final electronic submission copy may be accessed from the FSU Graduate Studies web site, [http://gradschool.fsu.edu/academics-research/thesis-treatise-dissertation](http://gradschool.fsu.edu/academics-research/thesis-treatise-dissertation) or by contacting the manuscript clearance adviser via e-mail at clearance@mailer.fsu.edu, or by phone at (850) 644-0045.

**Academic Progress Expectations**

All doctoral students are expected to take courses according to the Program of Study (POS), maintain a minimum of 3.0 GPA, and actively engage in dissertation research through frequent individual consultations with their major professors. In an annual review conducted during summer, a major professor will assess the progress of the student in writing and will make available copies of the annual review to the student, the departmental chair, and the academic dean. Major professors will use multiple sources of information including the student’s scholarly engagement activities, coursework quality and grades, previous feedback given to the
student, and the performance in milestone assessments (i.e., diagnostic, preliminary examination, prospectus) to evaluate the academic progress and to provide feedback on areas for improvement based on their expectations. Students are expected to discuss with their major professors to fully understand the major professors’ academic expectations and feedback given to them for improvement before signing the annual review form. When a student is not making satisfactory progress, a revised POS and/or an improvement plan (or a remediation plan) may be required at the time of annual evaluation.

**Continuous Enrollment**
Continuous enrollment at Florida State University is defined as enrollment without an interruption of two or more consecutive semesters (including Summer term). Credits earned at other institutions during any semester while not registered at Florida State University will not constitute continuous enrollment at the University. Students who are not enrolled at the University for two or more consecutive semesters (or consecutive semester and Summer term), and who are not on approved leave of absence, must apply for readmission before resuming their studies.

A student who has completed the required coursework, passed the Preliminary Examination and submitted an Admission to Candidacy form to the Office of the Registrar, and continues to use campus facilities and/or receives faculty supervision, but has not been cleared by the Manuscript Clearance office shall include in the required full-time load a minimum of two credit hours of dissertation per semester, including Summer term, until completion of the degree.

**Time Limit for Completion of Degree**
All requirements for the doctoral degree must be completed within five calendar years from the time the student passes the preliminary examination and is admitted to candidacy. If the student’s major professor and/or Department Chair does not choose to either approve an Extension of Time (EOT) or require the student to take the preliminary exam and/or coursework again for readmission to candidacy, then the student may no longer be enrolled in that program or at Florida State University.

**Readmission**
When a student fails to register for minimum hours for two consecutive semesters, the Office of the University Registrar regards the student as inactive and the student will no longer be able to register for courses. It is the policy of the Department of Educational Leadership and Policy Studies that doctoral students who become inactive must seek readmission in order to continue their degree program. Readmission is an option for students who have been inactive for two years or less. Students who were inactive for more than two years without a leave of absence must go through the regular admissions process.

To regain an “active” student status, the student needs to formally apply to the program for the following semester. In addition to submitting the same materials required for the regular admission, the student is required to: 1) explain in the letter of intent the reason for the inactivity and the plan for continuous enrollment and degree completion in a timely manner.
indicated in the revised POS, and 2) obtain a letter of recommendation from the current
academic advisor who evaluates the current progress and the future prospect in the academic
work of the student toward degree completion. The program will make a readmission decision
in consultation with the student’s academic advisor at the beginning of the fall and spring
semesters.

If the student seeking re-admission had already passed the preliminary examination and been
admitted to candidacy before becoming inactive, the student must also submit a prospectus and
proposed timeline for completion that the major professor considers defensible and reasonable,
respectively. Upon readmission, the student’s supervisory committee shall require that the
student set a date for the defense of the prospectus, in accordance with the Time Limit for
Completion of Degree policy. The student must then remain continuously enrolled (see section
on Continuous Enrollment) by completing a minimum of two dissertation hours per semester (or
three hours after completing 24 DISS hours) while completing all requirements for the doctoral
degree within five years from the date of admission to candidacy.

If the student seeking re-admission had already passed the prospectus before becoming
inactive, the student must also submit a specific timeline for graduation with submission due
dates of dissertation chapters, in addition to the documents listed above for readmission. If the
student is past five years since the preliminary exam, the student must follow the policy on time
limit for completion degree above.

Dissertation Hour Requirement
A student who has completed the required coursework, passed the Preliminary Examination
and submitted an Admission to Candidacy form to the Office of the Registrar, and continues to
use campus facilities and/or receives faculty supervision, but has not been cleared by the
Manuscript Clearance office shall include in the required full-time load a minimum of two
credit hours of dissertation per semester, including Summer term, until completion of the
degree. Doctoral students, after completion of the preliminary exam and twenty-four credit
hours of dissertation, must be enrolled for a minimum of three credit hours per semester (of
which at least two must be dissertation hours) until completion of the degree.

Defense of Dissertation
The defense of the dissertation will be oral, and the examination must be completed at least 4
weeks prior to the date on which the degree is to be conferred. Revisions to the final
dissertation must be completed before submission to the Graduate School which often requires
an earlier defense date.

Academic courtesy requires that the draft of the dissertation be submitted to each member of
the supervisory committee at least 4 weeks before the date of the oral examination. The
supervisory committee conducts the examination. At least 2 weeks prior to the date of the
examination, the student and major professor will present an announcement of the dissertation
title and the date and place of the examination to the FSU Graduate School. A link to the
Defense Announcement Form can be found online at http://gradschool.fsu.edu/academics-research/thesis-treatise-dissertation.

Dissertation defense results must be signed by all committee members and department chair. All committee members and the student must attend the entire defense in real time, either by being physically present or participating via distance technology. If exceptional emergency circumstances, e.g. medical or other emergency situations, prevent the participation of a committee member then it may be necessary to arrange for an additional appropriately qualified colleague to attend the defense. A minimum of four members with Graduate Faculty Status must participate (FSU Graduate Bulletin, College of Education).

A written critique of the conduct of the examination in defense of dissertation should be submitted by the outside committee member from the graduate faculty to the appropriate academic dean and the Dean of Graduate Studies within one week after the date of defense. After approval by the oral examination committee, the student should submit the final manuscript electronically to the manuscript clearance adviser.

Leave of Absence
Under special circumstances, graduate students may apply for a leave of absence from the University for a specific period of up to three consecutive semesters (includes Summer term). The circumstances justifying a leave include, but are not limited to: personal or family medical conditions, call to active military duty, parental leave, death in immediate family, or completion of an off-campus internship. The student must provide appropriate documentation and a rationale for the leave request.

To apply for a leave of absence, a student must complete the Request for Leave of Absence Form at https://gradschool.fsu.edu/forms and submit it together with appropriate documentation to the major professor/advisor/Program Director. If the major professor/advisor/Program Director approves the application it should then be forwarded to the department head and subsequently to the college dean for consideration. If approved at all of these levels, the college dean should notify the Registrar and the Dean of the Graduate School of the decision. The college dean should also notify the student of the decision (approved or denied). The Registrar will place a notation on the student’s record. A student who is denied a request for leave at any step may appeal the decision to the Dean of The Graduate School. Retroactive Leave of Absence Requests are not permissible.

An approved leave of absence preserves the student’s academic status in his or her degree program, and the time off will not be counted against the time limits for awarding degrees. Consequently, registration is not required during the leave period and the student need not re-apply to the program to return to active status at the end of the approved leave period. A leave may be extended for additional consecutive semesters (includes Summer term). A student should apply for the leave extension no later than four weeks prior to the end of the final semester/term of his or her initial leave to allow time to consider and process the request.
Extension of a leave is subject to approval of the program, college, and the Graduate School. The cumulative number of consecutive leave semesters (including summer term) shall not exceed six. The total consecutive or non-consecutive leave time a student is not registered in the program shall not exceed twenty-four months. At the conclusion of the approved leave, a student must enroll at Florida State University and return to active status no later than the start of the next academic semester. Students cannot be on leave during their semester of graduation and must be registered for a minimum of two hours that semester.

A student on a leave of absence may terminate the leave at any time prior to the approved ending date. In such cases the student would be immediately subject to the continuous enrollment and registration policies. Students returning from a leave of absence of more than one year will be required to disclose any legal or campus disciplinary charges that arose during the leave and provide updated contact and mailing address, residency documentation, and other biographical information as required by the University for reporting and processing purposes.

While on leave a student will not have access to campus facilities and personnel. This means a student will not have access to labs, libraries, and online resources that require an FSUID. Students on leave cannot remain in student housing. There is no guarantee that financial aid will be continued. Students with financial aid or student loans should confer with the Financial Aid Office and review their loan agreements prior to requesting a leave of absence to ascertain the consequences a leave will have on their loan status. University assistantship and fellowship support will be discontinued for the duration of the leave. Programs are not obligated to reinstate funding support that was provided prior to the leave though they are encouraged to do so if funds are available. Students receiving external support, e.g., an NSF Graduate Research Fellowship, should check the terms of the award to determine the impact of being on leave. In-state residency status may be impacted if the student moves out of the State of Florida, and then returns to resume the degree program. Students should seek guidance from the Registrar on the potential impact on in-state residency. International students should check with the Center for Global Engagement to determine if a leave would adversely affect their visa status. Students should also consider other factors that might impact their circumstances upon their return to active status. For example, a major professor might depart the University, or under extreme circumstances a degree program might be suspended or terminated. The University has an obligation to provide a path to completion for enrolled students as well as students on a formally approved leave of absence.

Graduation
A student must be admitted to candidacy for at least 6 months prior to the granting of the doctoral degree. An application for a diploma must be made in the Office of Records and Registration – Graduate Section, the first 2 weeks of the semester in which graduation is planned. A Final Term Clearance Form will be given to the student to complete. The University Clearance Guidelines, which contain graduation forms, must be obtained from the FSU Final Clearance Advisor.
Doctoral Program Checklist

1. Apply for Doctoral Study

2. Gain Admission to the Doctoral Program
   - Ph.D.: For the scholar/researcher/policy analyst

3. Determine Student Status and Financial Aid Eligibility
   - Full time = 12 credit hours without an assistantship; 9 credit hours with an assistantship.
   - Part time = 6 credit hours with employee tuition waiver; consult your department
   - In-state Residency: Consult with University Residency Coordinator and Department
   - Fee waivers: Full or partial waiver with some assistantships; consult your Department

4. Attend the Higher Education Program Orientation
   - Consult Program Coordinator for dates or check the web site. Generally, this is the Monday prior to the start of classes

5. Register for Classes
   - Use the FSU Directory of Courses for course offerings each semester
   - Select courses in sequence to complete degree based on Doctoral Handbook
   - Check with temporary advisor or major professor for approval
   - Register online using instructions in FSU Directory of Courses

   - Update the Canvas site as you complete benchmarks
   - If you need assistance, talk with your advisor

7. Develop an Approved Program of Study
   - Begin by selecting courses for current enrollment.
   - Consult with current students and temporary faculty advisor.
   - Negotiate options for transfer or substitution of post-master’s course credits.
   - Download College of Education Program of Study form.
   - Work out final draft of Program of Study with major professor.
   - Complete Program of Study form and obtain signatures of committee members, department chair, and academic dean of the College of Education no later than 12 months after enrollment.
   - Review requirements of the Florida State University Graduate Bulletin.
   - Consider course requirements and when offered:
     - Most offered only once a year, some in alternate years
     - Note required higher education and elective courses
   - Select concentration: Student Affairs OR Public Policy
   - Research requirements: 21 hours

8. Establish Supervisory Committee
   - Major Professor
   - Minimum of four members from the FSU graduate faculty
- One member, with tenure, from outside ELPS Department

9. **Complete the Program of Study**  57 hours (minimum)

10. **Pass Preliminary Doctoral Examination**
    - Read widely: use readings assigned for courses
    - Complete required research courses and core courses before taking examinations
    - Be in the last full term of coursework or have no more than 6 hours remaining in part-time study
    - Enroll for EDH 8964 and seek clearance from the department
    - Plan for Prelims to be the first Saturday of the academic term at 8am through the second Sunday of the academic term at midnight (12am)

11. **Prepare Prospectus of a Dissertation**
    - Remain continuously enrolled for a minimum of 2 dissertation hours per semester after passing all parts of the Preliminary Examination
    - Read the research literature for knowledge gaps
    - Prepare papers related to possible topics
    - Consult with Committee members and experts for topics
    - Ph.D. topic: original contribution to knowledge
    - Write the Prospectus; use an appropriate style manual
    - Defend the Prospectus

12. **Complete the Dissertation**
    - Enroll for Dissertation hours – 24 required, no less than 2 each term until completion
    - Follow the research design in the approved Prospectus
    - Conform to Guidelines and Requirements for Thesis, Treatise, and Dissertation Writers (see [www.gradstudies.fsu.edu](http://www.gradstudies.fsu.edu))
    - Collect data and information
    - Analyze the data and information
    - Write up the findings and conclusions of the study
    - Enroll for Dissertation Defense
    - Defend the Dissertation

13. **Graduate**
    - Apply to the FSU Registrar to graduate and pay fees
    - If you plan to attend, tell your major professor, so they may "hood" you
    - Reserve cap, gown, and hood months before ceremony
    - Order invitations through the FSU Bookstore

14. **Celebrate!**
The Hardee Center for Leadership and Ethics in Higher Education

The Hardee Center for Leadership and Ethics in Higher Education is named for Dr. Melvene Hardee, a former FSU Professor of Higher Education who was an admired educator, mentor, and national leader on issues of gender equity, leadership, values, and professional development in the field of higher education. The Hardee Center (http://education.fsu.edu/research/research-centers/hardee-center) supports the academic study and professional development of graduate students in the higher education program at FSU and promotes the “LifeNet” (Lifetime Network) of students, alumni, faculty, and friends. It also sponsors educational programs, research, and service activities that promote leadership and ethics in the field of higher education. The Center also supports the Higher Education Program through sponsoring travel, consulting on issues related to higher education leadership and ethics.

The objectives of the Hardee Center for Leadership and Ethics in Higher Education are to achieve the following:

• Support the professional development of graduate students in higher education through professional development seminars, speakers, travel grants, fellowships, research and publication opportunities, and mentoring programs.
• Foster the development of future higher education leaders who are committed to public service, ethical responsibility, social justice, and leadership with vision and purpose.
• Promote educational research and professional development in the areas of higher education gender equity, higher education leadership, and ethics.
• Host national professional meetings on issues related to higher education leadership, ethics, and gender equity.
• Assist in the development of graduate assistantships for students that offer a wide range of beneficial experiences in various higher education arenas.
• Promote the "Life Net" of students, alumni, faculty, and friends of FSU Higher Education Program, as well as seek support for future endeavors.
• Provide consultation and professional services on issues related to the Center mission & objectives.
Section 3: SELECTED UNIVERSITY POLICIES

Academic Honor System
A major concern of any educational institution, ranking with its concern for the advancement and dissemination of knowledge, is the maintenance of high standards of integrity and responsibility in the academic community. The Florida State University recognizes the responsibility of both faculty and students in developing and maintaining these standards. The legal foundation for the coordinated efforts of faculty and students to uphold academic integrity and combat academic dishonesty is provided in the Florida State University Student Conduct Code (6C2-3.004), which can be found in the Florida State University Student Handbook.

Academic Honor Policy – http://fda.fsu.edu/Academic-Resources/Academic-Honor-Policy
The statement on Values and Moral Standards says: “The moral norm which guides conduct and informs policy at The Florida State University is responsible freedom. Freedom is an important experience which the University, one of the freest of institutions, provides for all of its citizens – faculty, students, administrators, and staff. Freedom is responsibly exercised when it is directed by ethical standards.” (Values and moral standards at FSU retrieved from the current General Bulletin located at https://registrar.fsu.edu/archive/bulletin/graduate/)

The statement also addresses academic integrity: “The University aspires to excellence in its core activities of teaching, research, creative expression, and public service and is committed to the integrity of the academic process. The [Academic Honor Policy] is a specific manifestation of this commitment. Truthfulness in one’s claims and representations and honesty in one’s activities are essential in life and vocation, and the realization of truthfulness and honesty is an intrinsic part of the educational process.” (Values and moral standards at FSU retrieved from the current General Bulletin located at https://registrar.fsu.edu/archive/bulletin/graduate)

Guided by these principles, this Academic Honor Policy outlines the University’s expectations for students’ academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty throughout the process. The Academic Honor Policy Committee may take direct jurisdiction of a case under extraordinary circumstances when it is determined by a majority vote of the committee that taking direct jurisdiction is appropriate. Students in the College of Law and the College of Medicine are governed by the academic integrity policies and procedures of their respective colleges, which are subject to approval by the Academic Honor Policy Committee.

FSU Academic Honor Pledge
I affirm my commitment to the concept of responsible freedom. I will be honest and truthful and will strive for personal and institutional integrity at The Florida State University. I will abide by the Academic Honor Policy at all times. (Retrieved from the current General Bulletin
Academic Honor Violations
Full policy available online at https://fda.fsu.edu/academic-resources/academic-integrity-and-grievances/academic-honor-policy

Note: Instructors are responsible for reinforcing the importance of the Academic Honor Policy in their courses and for clarifying their expectations regarding collaboration and multiple submission of academic work. Examples have been provided for the purpose of illustration and are not intended to be all-inclusive.

1. PLAGIARISM. Intentionally presenting the work of another as one’s own (i.e., without proper acknowledgement of the source).
   Typical Examples Include: Using another’s work from print, web, or other sources without acknowledging the source; quoting from a source without citation; using facts, figures, graphs, charts or information without acknowledgement of the source.

2. CHEATING. Improper access to or use of any information or material that is not specifically condoned by the instructor for use in the academic exercise.
   Typical Examples Include: Copying from another student’s paper or receiving unauthorized assistance during a quiz, test or examination; using books, notes or other devices (e.g., calculators, cell phones, or computers) when these are not authorized; procuring without authorization a copy of or information about an examination before the scheduled exercise; unauthorized collaboration on exams.

3. UNAUTHORIZED GROUP WORK. Unauthorized collaborating with others.
   Typical Examples Include: Working with another person or persons on any activity that is intended to be individual work, where such collaboration has not been specifically authorized by the instructor.

4. FABRICATION, FALSIFICATION, AND MISREPRESENTATION. Unauthorized altering or inventing of any information or citation that is used in assessing academic work.
   Typical Examples Include: Inventing or counterfeiting data or information; falsely citing the source of information; altering the record of or reporting false information about practicum or clinical experiences; altering grade reports or other academic records; submitting a false excuse for absence or tardiness in a scheduled academic exercise; lying to an instructor to increase a grade.

5. MULTIPLE SUBMISSION. Submitting the same academic work (including oral presentations) for credit more than once without instructor permission. It is each instructor’s responsibility to make expectations regarding incorporation of existing academic work into new assignments clear to the student in writing by the time assignments are given.
Typical Examples Include: Submitting the same paper for credit in two courses without instructor permission; making minor revisions in a credited paper or report (including oral presentations) and submitting it again as if it were new work.

6. ABUSE OF ACADEMIC MATERIALS. Intentionally damaging, destroying, stealing, or making inaccessible library or other academic resource material. Typical Examples Include: Stealing or destroying library or reference materials needed for common academic purposes; hiding resource materials so others may not use them; destroying computer programs or files needed in academic work; stealing, altering, or intentionally damaging another student's notes or laboratory experiments. (This refers only to abuse as related to an academic issue.)

7. COMPLICITY IN ACADEMIC DISHONESTY. Intentionally helping another to commit an act of academic dishonesty. Typical Examples Include: Knowingly allowing another to copy from one's paper during an examination or test; distributing test questions or substantive information about the material to be tested before a scheduled exercise; deliberately furnishing false information.

8. ATTEMPTING to commit any offense as outlined above.

Academic Responsibility
Each student shall be responsible for abiding by the Academic Honor Code at all times. The instructor may further define in writing in the syllabus or other documents the instructor's specification of the acts that shall constitute a violation of the Academic Honor Code. Any student who observes cheating or violates the Academic Honor Code is expected to report the violation to the instructor of the course.

ADA Compliance
Florida State University is committed to providing a quality education to all qualified students. The Office of Accessibility (OAS) was established to serve as an advocate for FSU students with disabilities and ensure that reasonable accommodations are provided. As a primary advocate for students with disabilities, the OAS works with faculty and staff to provide accommodations for the unique needs of students both in and out of the classroom. The OAS offers an opportunity for students to achieve their academic and personal goals. Students are encouraged to take advantage of the wide array of services available from the OAS. For further information, contact the Office of Accessibility Services at 644-9566 (voice); 850.270.5370 (for TDD) or go online to https://dsst.fsu.edu/oas.

Grade Appeals System
The purpose of the grade appeals system is to afford an opportunity for an undergraduate or graduate student to appeal a final course grade under certain circumstances. Faculty judgment of students' academic performance is inherent in the grading process and hence should not be
overturned except when the student can show that the grade awarded represents a gross violation of the instructor’s own specified evaluation (grading) statement and therefore was awarded in an arbitrary, capricious, or discriminatory manner. The evaluation (grading) statement utilized during the grade appeals process is the one contained in the instructor’s syllabus at the beginning of the semester. This system does not apply to preliminary or comprehensive exams or to thesis or dissertation defenses; these issues are reviewed by the Student Academic Relations Committee via the Vice President for Faculty Development and Advancement.

**Step 1.** Within fifteen class days (defined throughout the Grade Appeals System as Mondays through Fridays during regular fall, spring, and summer semesters, as noted in the FSU Academic Calendar maintained by the University Registrar. Class days are not dependent on whether an individual student has class on a particular day) following the date that final grades are made available to students, the student must contact the instructor in question to discuss the grade and attempt to resolve any differences. The student should document any attempts to contact the instructor in order to establish that the appeal was begun within this fifteen-class-day period. In the event that the instructor is not available, the student should provide that documentation to the instructor’s program or department chair. It is expected that the student will first attempt to resolve the grade dispute with the instructor; however, either the student or the instructor may consult with the appropriate department chair, school director, or designee during this process.

**Step 2.** If no resolution is reached within this fifteen-class-day period, after the student’s documented attempt, the student has an additional ten class days to submit a written statement to the department chair, school director, or designee. This statement must include an account of attempts to resolve the issue, as well as the evidence that forms the basis for the appeal. Within twenty class days thereafter, the department chair, school director, or designee will set a date for a meeting of a grade appeals screening committee composed of three students enrolled in the academic unit offering the course to review the appeal. These students should be either undergraduate or graduate students, depending on the enrollment status of the student challenging the grade. The meeting should occur within that twenty-class-day period, if practicable. Appropriate students who have no conflict of interest will be chosen to serve on this screening committee by a student organization associated with the program or department, if such an organization exists. If none exists or if members of such an organization are not available, the department chair, school director, or designee will select appropriate students who have no conflict of interest. Both the student and the instructor may attend the meeting, as may the department chair, school director, or designee. The role of the screening committee is solely to determine whether the student has presented sufficient evidence to warrant further review. Within five calendar days after this meeting, the screening committee will render its decision in writing (recommend/do not recommend further review) to the department chair, school director, or designee, the student, and the instructor. A
negative decision will end the appeal. A positive decision will trigger the next step in the process.

**Step 3.** Within fifteen class days of a positive decision from the grade appeals screening committee, the department chair, school director, or designee will appoint and arrange for a meeting of a grade appeals board. The meeting should occur within that fifteen-class-day period, if practicable. The board is composed of three faculty members and two students other than those who served on the screening committee. These students should be either undergraduate or graduate students, depending on the enrollment of the status of the student challenging the grade.

The purpose of this board is to determine whether or not to uphold the final grade assigned by the instructor. The board will consider only the evidence provided by the student and the instructor in making the determination. The student, the instructor, and the department chair, school director, or designee may attend the meeting.

The grade will be upheld unless the evidence shows that the grade was awarded in an arbitrary, capricious, or discriminatory manner, as a result of a gross violation of the instructor’s own evaluation (grading) statement. If the original grade is not upheld, the board will recommend that an alternative grade be assigned by the department chair, school director, or designee.

If the student has evidence that this grade appeals process has deviated substantially from these established procedures, resulting in a biased decision, the student may consult with the Office of Faculty Development and Advancement regarding referral to the Faculty Senate Student Academic Relations Committee.

**Note:** For additional information regarding general grading practices and approvals, please refer to the ‘Grading Practices’ section in the “Academic Regulations” chapter of the General Bulletin.

**Graduate Academic Policies and Procedures**
The following websites reflect newly updated information on graduate-level academic policies at FSU:

- The Florida State University Graduate Bulletin (see [http://registrar.fsu.edu/bulletin/grad/](http://registrar.fsu.edu/bulletin/grad/))
- The Guidelines and Requirements for Thesis, Treatise, and Dissertation Writers (see [www.gradstudies.fsu.edu](http://www.gradstudies.fsu.edu))

**Dissertation**
A doctoral dissertation must be completed on some topic connected with the major field of study. To be acceptable it must be an achievement in original research constituting a significant contribution to knowledge and represent a substantial scholarly effort on the part of the student. The manuscript must be prepared according to the style and form prescribed by the department. Formatting and clearance guidelines for the final electronic submission copy may
be accessed from the Office of Graduate Studies Web site, http://www.gradstudies.fsu.edu, or by contacting the manuscript clearance adviser.

A student who has completed the required course work, passed the preliminary examination and submitted an Application to Candidacy form to the Office of the Registrar, and continues to use campus facilities and/or receives faculty supervision, but has not made a final dissertation submission shall include in the required full-time load of twelve (12) semester hours a minimum of two (2) dissertation hours per term. Those with underload permission must register for at least two (2) hours of dissertation credit per term. Underloads must be approved by the academic dean. Before registering for dissertation hours, the student must consult the major professor as to the proportion of time to be devoted to dissertation work. The number of hours listed will show the proportion of time to be devoted to the dissertation (with twelve [12] semester hours as an indication of fulltime status). For example, OCE 6980, four (4) semester hours, will indicate that the student expects to devote one-third of the time to dissertation. The number of hours should not only reflect the effort of the student, but should take into account the use of campus facilities/resources and faculty interaction/supervision.

The minimum number of dissertation hours for completion of a doctoral degree shall be twenty-four (24) semester hours.

For more specific information on final-term registration, see the scholarly engagement requirements listed above. Final approval of the dissertation by the entire supervisory committee is prerequisite to the awarding of the degree. This is true no matter how many hours a student has completed in dissertation or what grades have been recorded for the dissertation hours. As a condition of undertaking a dissertation program, the student agrees that the completed dissertation will be archived in the University Libraries system. The student will make the electronic dissertation available for review by other scholars and the general public by selecting an access condition provided by the FSU Graduate School.

Registration for Final Term
For doctoral students and master's students in a thesis-type program, registration shall be required in the final term in which a degree requiring a thesis, dissertation, or treatise is granted, in accordance with the policies stated in the 'Thesis' and 'Dissertation' sections of this chapter. If a student does not make the manuscript final submission deadline for a given term, but completes all degree requirements before the first day of the next term, it is possible to waive the registration requirement. To be eligible for this registration exemption, all degree requirements, including manuscript clearance, must be completed prior to the first day of the next term. The FSU Graduate School, (850) 644-3500, can provide information on this procedure.

Guidelines for Restrictions on the Release of Theses and Dissertations
The free and open dissemination of the results of research conducted at Florida State University is required if the University is to contribute effectively to the education of its students and to the body of human knowledge. Conflicts can develop among the interests of research sponsors,
research directors, and the students doing the research. To ensure that the interests of all parties are protected, the following guidelines should be observed. An ETD must be made available in its complete and original format. It cannot be subdivided into chapters and disseminated under different distribution options.

- **Worldwide Distribution.** Recommended to all of our students. This option makes the ETD freely available worldwide via the FSU ETD Digital Library. It should be noted that some publishers may see a conflict with this level of distribution prior to publication.

- **Embargoed Access (24 Months).** Recommended to students who have a patent application in process or who want to restrict access to the ETD for a limited amount of time in order to pursue commercial interests or other publication. After the restricted time period, the document will be made freely available through worldwide distribution (option above).

The maximum delay in the release of a thesis, treatise, or dissertation to the university libraries and UMI/PQIL shall not exceed twenty-four (24) months from the date the thesis, treatise, or dissertation is approved by the FSU Graduate School. In special circumstances, the Dean of Graduate Studies may grant an additional delay of twenty-four (24) months upon request if the case is made that the delay is in the best interests of all parties or if publication or commercial interest in the document is still ongoing. Such a request must be submitted at least one month prior to the expiration of the original period of delay. It should be recognized that adherence to this policy does not constitute a guarantee that information in the sequestered thesis or dissertation will not be disseminated by means other than the written thesis or dissertation. Information about particular access issues related to electronic theses, treatises, and dissertations may be obtained from the FSU Graduate School. A request for such a delay must be presented in writing to the Dean of Graduate Studies and carry the endorsement of the student, the major professor, the department or program chair, and the dean of the relevant college or school.

**Note:** Students should not suffer delays in their normal academic progress, including the final defense of the thesis or dissertation, as a result of a desire to delay release of the thesis or dissertation to the library.
Section 4: PROGRAM FACULTY

Full-Time Faculty

Cameron Beatty, Ph.D., Iowa State University
  • Assistant Professor
  • Gender and race in leadership education, leadership development, global leadership for undergraduate students

Tamara Bertrand Jones, Ph.D., Florida State University
  • Associate Professor and Associate Chair of ELPS
  • Doctoral socialization, Gender and race in higher education, mentoring, program evaluation, and qualitative research

Bradley E. Cox, Ph.D., Pennsylvania State University
  • Associate Professor and Higher Education Program Coordinator
  • Student affairs, college student development, student outcomes

Kathy L. Guthrie, Ph.D., University of Illinois at Urbana-Champaign
  • Associate Professor and Director, Undergraduate Certificate in Leadership Studies
  • Leadership education, online teaching and learning, and student affairs professional development

Shouping Hu, Ph.D., Indiana University
  • Louis W. and Elizabeth N. Bender Endowed Professor
  • Higher education access and success, student engagement and learning, and public policy

Marianne Lorensen, Ph.D., University of Nebraska-Lincoln
  • Teaching Faculty, Undergraduate Certificate in Leadership Studies
  • Leadership education, student affairs, and service-learning.

Christine Mokher, Ph.D., Vanderbilt University
  • Associate Professor; Director, Institutional Research Certificate Program
  • Public policy college readiness, student transitions from high school to postsecondary education, college success, mixed methods research, program evaluation

Lara Perez-Felkner, Ph.D., University of Chicago
  • Associate Professor
  • College access and success; sociology of education, women and underrepresented students in higher education, basic needs insecurity, STEM higher education

Robert A. Schwartz, Ph.D., Indiana University
  • Professor, HESA Faculty Advisor
  • Women and minorities in higher education, history of higher education, higher education administration

Sally Watkins, Ph.D., Florida State University
  • Teaching Faculty, Undergraduate Certificate in Leadership Studies
  • Leadership, history of higher education, institutional presidents, career readiness
Affiliated Faculty

Brandon Bowden, Ph.D. Florida State University
  Black men in higher education, student affairs

Jillian Volpe White, Ph.D., Florida State University
  Student affairs assessment, leadership education, experiential learning

Emeritus Faculty

Joseph Beckham, J.D. & Ph.D., University of Florida
Jon C. Dalton, Ed.D., University of Kentucky
Dale W. Lick, Ph.D., University of California-Riverside
John S. Waggaman, Ed.D., Indiana University
