2012 MARVALENE HUGHES

RESEARCH IN EDUCATION CONFERENCE

The Marvalene Hughes Research in Education Conference is an annual event, organized by the Council on Research in Education (CORE), which allows for faculty and students to share current research projects. Held in conjunction with the annual spring faculty meeting, the conference provides an avenue for internal celebration of the quality research being done across the college and offers opportunities for further collaboration across departments.

Dr. Marvalene Hughes is a distinguished alumna of the College, a Florida State University 'Grad Made Good', and former president of Dillard University. Her generous support of this event portrays her commitment to higher education and her vision for creating partnerships that advance the common good.
