Florida State University College of Education
Mode L. Stone Building
1114 W. Call Street
The purpose of the Council on Research in Education (CORE) is to raise and address issues related to research and grant possibilities within the College of Education (COE) and to facilitate collaboration within and across departments and schools in order to promote research initiatives. To support and enhance the community of inquiry and facilitate research dissemination in our College, travel expense funding, provided by the Dean’s Office, is awarded to faculty and graduate students. In addition, one faculty member and one graduate student receive a Robert M. Gagné Research Prize.

The Marvalene Hughes Research in Education Conference is an annual event that is organized by the CORE committee to celebrate and showcase the work of COE faculty and graduate students. The first CORE Conference was held in 2007. In 2009, Dr. Marvalene Hughes began co-sponsoring the event, and generously continues to do so.

About the Title Sponsor

Dr. Marvalene Hughes is a distinguished alumna of the College, where she earned her Ph.D. in Counseling and Administration. She is also a Florida State University “Grad Made Good” recipient. She previously served in a number of teaching and administrative positions at major research universities, including university president positions at Dillard University and California State University, Stanislaus. Dr. Hughes has engaged in research and published widely in the fields of education, human behavior, diversity, and organizational management. She also has been actively involved, nationally and internationally, in professional associations. Her generous support of this event is an illustration of her commitment to higher education and her vision for creating partnerships that advance the common good.

Three-Minute Thesis Judging Criteria

Comprehension & Content

Did the presentation provide an understanding of the background to the research question being addressed and its significance?

Did the presentation clearly describe the key results of the research including conclusions and outcomes?

Did the presentation follow a clear and logical sequence?

Was the thesis topic, key results and research significance and outcomes communicated in language appropriate to a non-specialist audience?

Did the speaker avoid scientific jargon, explain terminology and provide adequate background information to illustrate points?

Did the presenter spend adequate time on each element of their presentation - or did they elaborate for too long on one aspect or was the presentation rushed?

Engagement & Communication

Did the oration make the audience want to know more?

Was the presenter careful not to trivialise or generalise their research?

Did the presenter convey enthusiasm for their research?

Did the presenter capture and maintain their audience’s attention?

Did the speaker have sufficient stage presence, eye contact and vocal range; maintain a steady pace, and have a confident stance?

Did the PowerPoint slide enhance the presentation - was it clear, legible, and concise?

Robert Mills Gagné Research Award

Robert Mills Gagné earned his Ph.D. from Brown University in 1940. In 1969, following an already distinguished career working with U.S. Air Force research laboratories, acting as Director of Research for the American Institutes of Research, and serving as a distinguished professor at the University of California at Berkeley, Gagné was recruited to FSU. He is the only faculty member in the College of Education to have served as President of the American Educational Research Association. He is only the second COE faculty member to have been named a Robert O. Lawton Distinguished Professor, the highest honor that the faculty can bestow on a colleague. His scholarly contributions elevated the reputation of his program, Instructional Systems, as well as the College and University. Gagné retired in 1985 but continued working and writing for almost 10 more years. This award honors his research legacy and the spirit of mentoring with which he worked with students and faculty colleagues.
