

How to use the FSU Virtual Lab

Please note: The FSU Virtual Lab server reboots every night at 12am (midnight). Do not run any lengthy analysis jobs late in the evening as they may not complete before the server shuts down!!!

Use your FSUID and password to access the FSU virtual lab at <https://myfsuvmab.its.fsu.edu/>.

Can I print from myFSUVMab?

Yes, you may print from any myFSUVMab app. When printing, select **Citrix PDF Printer** from the list of available printers. This will generate a PDF document on your device in your browser or default PDF application. * Then, you can print the PDF document to a physical printer connected to your device.

*If you are using the Google Chrome browser, you must first allow the PDF to be generated using the default PDF viewer application on your device. To change this setting:

1. Click the Chrome **customization button** in the top-right corner of the browser window

2. Select **Settings**
3. On the Settings page, click the **Show advanced settings...** link at the bottom of the page
4. Under the **Privacy** section, click the **Content settings...** button
5. Scroll down to the **PDF Documents** section and select the checkbox next to “Open PDF files in the default PDF viewer application”
6. Click **Done**

How do I access and open the myFSUVMab apps?

1. Sign in to myFSUVMab with your FSUID and password: myfsuvmab.its.fsu.edu
2. Click the **Apps icon** at the top of the page to view all available apps

3. Click the icon for the app you wish to launch
4. The app will open in a new browser tab
5. When you are done working, click the X inside the app window to close it (NOTE: Do not close the browser tab)

6. To add an app to your favorites, click **Details** next to the app and choose **Add to Favorites**

7. The app will now appear on your Favorites page when you first sign in

How do I copy and paste content between myFSUVLab and my device?

Copying and pasting content between your device and myFSUVLab requires a few steps.
